

My name is Alain J Leclerc, CEO of [alainleclerc.com](http://alainleclerc.com), and, also known under my pen name Alain Leclerc.

I present you the second part of my novel "School: a little story about life and education (part 2)".

If you know me and my works, you are aware on the first part where the main characters, Gabriel, Evelyn, and John, were introduced and described as the decor that surrounded them. Well, they evolved in this second part, and more than that, you will meet Gabriel's wife, Emma, and their children; you will know about Gabriel's work as a special teacher and educator who helped 6 main personages (teenagers: 3 young men and 3 young women) who live a difficult time while in a Youth Center detention but they all have an exceptional talent.

-----

In résumé, from the Preface of the book:

Looking back at the first part of School: a little story about life and education, we learned about the main characters, Gabriel, Evelyn, and John. However, from the relationship between Gabriel and Evelyn, between Gabriel and John, and even Gabriel's marriage and family, we don't know what happened after the breakup of one and the other, or the departure of one and the other, or the union of one and the other. What happened with Evelyn? Why did she leave? Was she happy? What about John? Did he manage to stop drinking alcohol? Did he have a relationship? Did he get married? Did he have any children? What about Gabriel's marriage? Who's the wife? How did they meet? Did they have children? What about Gabriel's work? He graduated and began teaching, but where and what? In answer to those questions I began to write this second part of School: a little story about life and education. Then, the story leads Gabriel, as a special educator in Youth Centers, who meets and helps 6 particular teenagers ready to face life, as they become adults, and they had a challenging time which has resulted in their detention in closed Center. Gabriel met each one of them and helped them to rediscover a special talent (arts or sports) they had, for they could use it to face life in the adult world and have a brighter future.

So, in this book, the main theme is Juvenile Delinquency to Freedom which will come out in the big picture. Faith and love.

So, enjoy reading the discovery of School: a little story about life and education (part 2).

A wonderful novel, a quality book, which will make you experience emotions by reading it as it is filled with love and understanding.

Thanks!
